I am UNIQUE!

At first sight the same, at second sight very similar but still unique?

At first sight the same, at second sight very similar but still unique?

There are many, many of us diversiflies in the world. I don't know by far all of them, but I have met quite a few on my journeys. Every diversifly looks a bit different, loves different things or speaks a language which I have never heard before – but still we are all very similar.

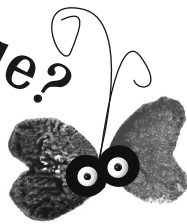

I have learnt a lot from the other diversiflies and have always asked myself:

If many things in us are similar, even look almost the same, what exactly makes me unique?

Is it my eyes? My body? What I think or what I feel?

The little dot on my wing which I have never seen in any other diversifly?

What makes you unique?

DIVERSIFLY FLIGHT

Did you know that I am called “Diversifly”?
Have you ever heard this name before?

Whenever I meet other people, I always have to explain why I am called this. It is a little bit complicated because a “diversifly” is a lot of everything.

Come on, let’s try to describe my name together. Maybe the alphabet can help us. I have written down all the letters!

You start! **Enter a word for every letter which you think has to do with “diversity”!**

A = another

B ≈

C = colour

D = double

E =

F =

G =

H = home

I »

J =

K =

L →

M =

N =

O =

P »

Q =

R =

S = smell

T ≈

U =

V =

W →

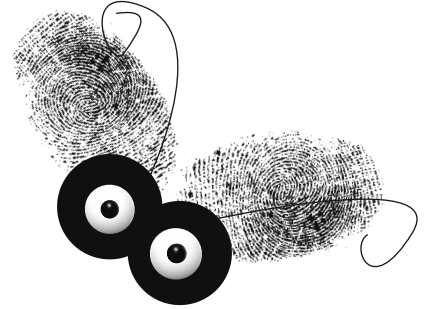

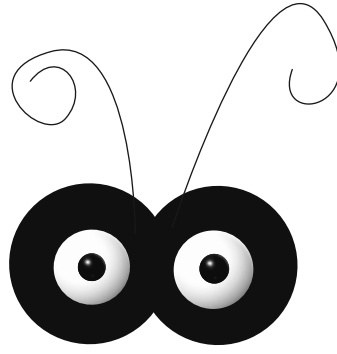

X =

Y =

Z =

Action Sheet

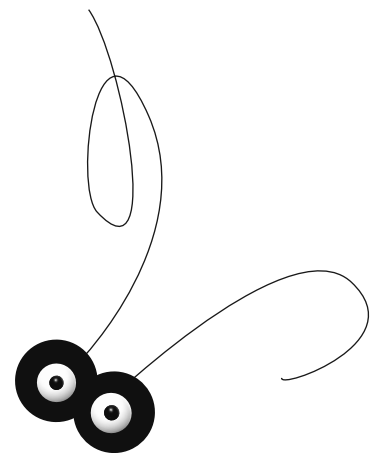

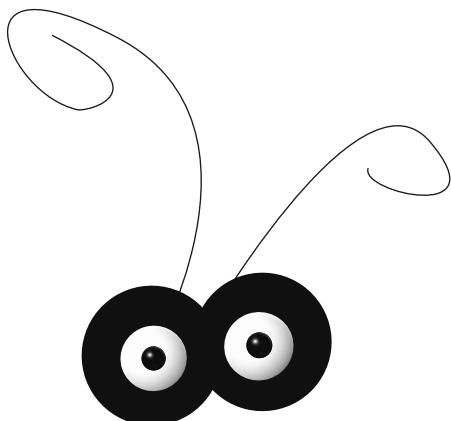

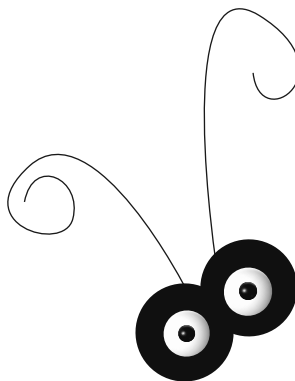

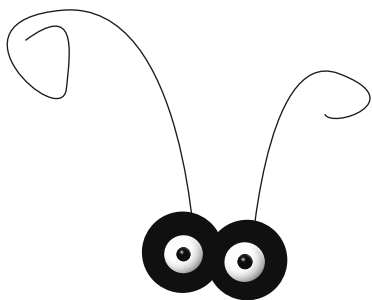

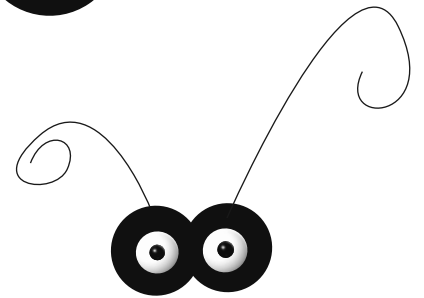

I am UNIQUE!

Did you know that every fingerprint only exists once in the world?

Try it out right away!

Here you can find an ink pad to dye your thumb.
Then press your thumb on the free space.

DIVERSIFLY FLIGHT

Sunny to stormy ...

Last week we were flying a bit in a diversiflies swarm.

That wasn't all that simple because we all spoke different languages and not all of us could fly equally well.

Luckily no harm was done!

We all looked after each other and helped each other.

That was a real diversiflies journey –

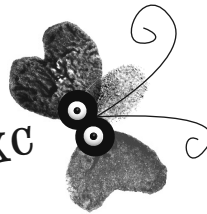

There are some words hiding in our flight paths ...

→ Can you find them?

HOME

Helloooo°,

I've heard that home means something different to every person.

Is that true?

To me, it's like this: I travel a lot, that's why home is more like a feeling to me ...
but after all, I am a diversify!

What does home mean to you?

Is it the place where you were born and grew up? Or where your family lives?
Or is home maybe just a particular feeling or a smell?

Write down some sentences or paint a picture for me!

Action Sheet ...

ON THE MOVIE ABOUT HIND

A big journey!

Almost three years ago, I accompanied a girl from Syria on her adventurous way to Germany. Her name was Hind and she was 11 years old. She had to leave Syria with her family because there is war there and they were not safe there anymore.

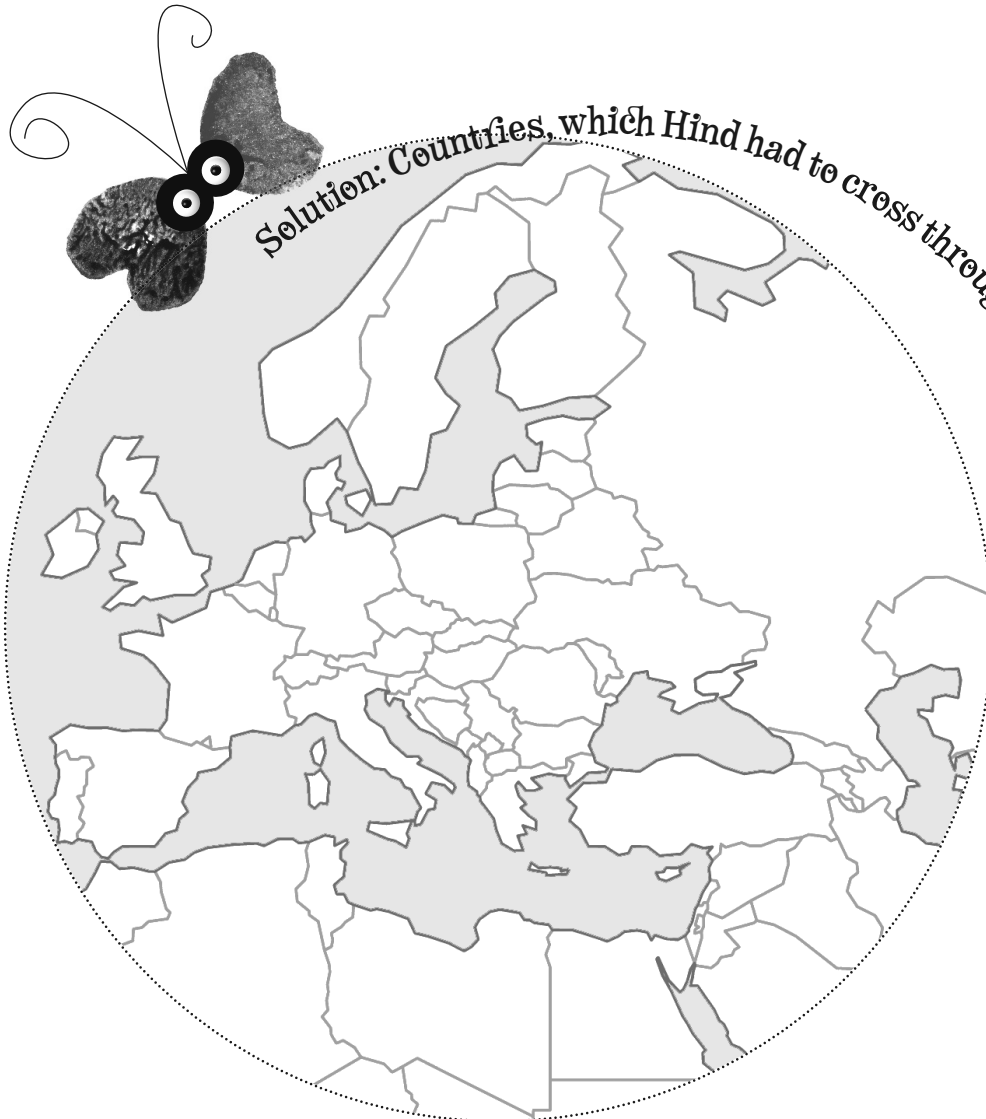

The flight from Syria to Germany was very exciting and also dangerous.

Actually, I wanted to describe the way to you now,

but I have forgotten half of it because I am so excited.

Can you help me? How did Hind and her family get here again?

Watch the movie and draw the way on the map!

Solution: Countries, which Hind had to cross through during her flight?
